SECOND DAY OF STANTON TRIAL

Discussion Yesterday Afternoon Over Admission of Certain Features

PROCEEDINGS TODAY

References to Alleged Business Relations Between Mrs. Stanton and Rolph Ruled Out

Upon the reassembling of the Corporation Court yesterday afternoon some time was consumed between the Commonwealth's Attorney and Edmund Burke counsel for D. Worth Stanton, relative to the admission of certain references in connection with alleged business relations between Mrs. Stanton and the late Jesse Rolph.

The court ruled that in case Mrs. Stanton fails to appear to take the stand such evidence will be barred, as at present.

Dr. W. A. Warfield followed. He was in Rosemont May 12; saw Stanton betwen 12 and 1 o'clock; later received a call to Rolph's house, he having been shot; ministered to him; his death occurred on the 14th.

The testimony was long drawn out from the fact that many questions propounded by the defense were ruled out. Some, however, were declared in order. They referred mostly to affairs betwen the deceased and Mrs. Stanton previous to the tragedy.

Mrs. Edgr Warfield, Jr., took the stand She saw Stanton walking up and down the street in Rosemont May 12. He was carrying a club. Later heard of the shooting.

Mrs. May Andrews followed. She lives near the home of Rolph. Saw Stanton with base ball bat May 12. He was on Russell Road. Later heard a shot and saw persons gather.

Several other witnesses followed, but their testimony brought out nothing material.

Court adjourned about six o'clock until this morning.

Upon reassembling this morning Mrs. Mabel D. Suter took the stand as a witness for the commonwealth. Witness saw Stanton on Mount Vernon Avenue about 10 o'clock on the morning of May 12. Saw him again when he was leaning against a tree. Later Stanton walked up to Rolph and struck him with a club.

The commonwealth here rested its case.

F. W. Buckler, Auditor for the Washington Tobacco Company, was put upon the stand for the defense. He said Stanton was head bookkeeper for the company. Witness had noticed that during the latter part of April Stanton had acted as though in a dreamy condition. His mind was upset, which subsequently caused him to relinquish his position. Witness supposed family troubles were the source of his perturbance.

John M. Johnson was next called. Witness said he is acquainted with the prisoner. His testimony was chiefly in reference to legal work he had performed for the family.

John Reed followed. His testimony was in reference to the demeanor and general reputation of Stanton.

Several other witnesses took the stand who testified to the character of Stanton.

Sergeant Cornwell, of the detective force of Washington, testified as to alleged worthless checks uttered by Mrs. Stanton and the part witness played in the investigation. While applying for a warrant in the Police Court Rolph had called him up and announced that the money said to have been realized on the checks had been made good. About $1,000 had been paid by certain Washington houses where the money had been raised. Stanton was greatly worried when he came to him and told him of his wife's actions. Mrs. Stanton on other occasions had had checks cashed at certain Washington stores.

Mrs. Mason, who resides at Rosemont, mother in law of Stanton, next took the stand. She testified to amicable relations as having until recently existed between husband and wife. After the birth of Mrs. Stanton's second child a noticeable change took place in her daughter; she became nervous. Witness told of relations which existed between Mrs. Stanton and one of her female neighobrs, the first named often remaining at the woman's home until 2 o'clock in the morning.. Witness did not desire her daughter to consort with her, nor did Mrs. Stanton's husband. Rolph, witness said, had in the meantime become acquainted with Mrs. Stanton. She told a number of incidents in connection with her daughter's subsequent movements, the latter's disappearance her neighbors doubt of knowledge of her whereabouts; the discovery of part of her daughter's wearing apparel in her neighbor's automobiles, etc.

Long colloquies followed between the court and the attorneys as to the admission of certain evidence alleging conspiracy between the female nieghbor referred to and Rolph calulated to precipitate trouble in Stanton's family. The court declared certain evidence would be admitted, if of a direct nature.

The Commonwealth's Attorney objected to many queries propounded by Mr. Burke, some of which were sustained.

At one o'clock a recess was taken until 2 o'clock.

Upon reconvening the cross examination of Mrs. Mason consumed some time.

The case will not be concluded today, it is said.

SENTIMENT AGAINST "DRYS."

Virginia Officers Guard to Prevent Stopping of Prohibition Rally

Winchester, Va., Aug. 6.—Sentiment against prohibition is so strong in Shenandoah county that the sheriff was called upon to preserve order at a prohibition rally of the Anti-saloon League at Wakemans Grove, near where Raymond Shackelford and Lawrence Hudson, alleged bootleggers, were shot by prohibition officers.

Armed deputy sheriffs stood guard to prevent the liquor element from breaking up the meeting.

STRIKE BREAKERS WORK AT R. R. YARDS

Few Imported to Fill Place At Southern and Potomac Yards

MEN HOLD MEETING

Apart From Appearance of Few Laborers at Yards No Other Signs of Activity.

A few strikebreakers today are at work at the Southern Railway and the Potomac Railroad yards according to union officials who held a joint meeting today in the Opera House.

It was stated that only two strikebreakers are at the Southern yards, they being employed to supply engines, and five at the Potomac yards.

The meeting held today in the Opera House was taken up in hearing report from various other unions. It was announced that about 400 men are expected to go out at the Washington terminal by night and that within the next forty-eight hours probably all of the Baltimore and Ohio men in Baltimore will walk out.

H. F. Chichester, general chairman of the strike committee, asked that all merchants not to cater to the strikebreakers.. It is reported other strikebreakers, all of whom are laborers, were brought here by the Southern, but when they ascertained conditions they returned.

That the roads are going to fill the places of the laborers with strikebreakers in order to facilitate the work there seems to be but little doubt. Apart from the laborers no action yet has been taken to fill the places of the mechanics who are out.

WANT MEN FOR THE "CARRY ON WORK"

U. S. Public Health Service Seeks Men Desiring to Enlist in That Branch

INTEREST IN WORK

Draft Revealed That Physical Fitness Was Only About 50 per cent Fit For Full Military Service.

The fine public spirit with which the people of Alexandria respond to the efforts of the U. S. Public Health Service and the expressions of appreciation which are constantly coming to the officer in charge of the Public Health office indicate the favorable energetic interest which is being aroused in public health affairs in this city.

The draft army revealed a condition of physical health and a state of lowered physical fitness for military service which although suspected by careful observers interested in the general welfare had not been conclusively demonstrated. The fact that between one-third and one-half of the young men of the nation, between the ages of twenty-one and thirty-one years, the age at which physicalness should be 100 per cent flat, were found to be unfit for full military service, should arouse the thoughtful apprehension of every man and woman in the land.

Men who are not available for full duty as soldiers cannot be fully efficient in industry and as citizens upon whom depends the future development of Greater America and the physical welfare of generations yet unborn and as a corrective for which a high class health sentiment an efficient health propaganda and a more normal and adequate physical training for all is imperatively demanded.

The physical training of our young men in the army has been a revelation and nothing short of astonishment expresses the surprise, not only of their friends but of the men themselves at the remarkable muscular development ,increased endurance, heightened efficiency and generally improved state of well being resulting from military experience.

To the Medical Department of the service, which has applied the health principles of hygiene, sanitation, diet and wholesome exercise for the accomplishment of these desirable ends, in a very conspicuous degree belongs th credit, and the Medical Department is now extending an invitation to other young men who have not had the advantage of such training to enlist, not only on account of the benefit it will be to themselves immediately ,but also from the patriotic motive of "Carrying On" a work which has already proven to be of such vital importance.

Information as to enlistments in the Medical Department of the army will be cheerfully furnished at the Public Health Office in the City Hall.

Sanitary Fish Market will have on sale tomorrow and balance of week: fresh mackerel, large and medium Jersey trout, Norfolk spots, large butterfish, crab flakes, clams and a few select melons on ice at reasonable prices. Stall No. 2, City Market. Phone 735. Open till 5 p. b. 186-2p

ASKS CO-OPERATION FOR HEALTH RULES

Dr. L. E. Foulks Wants Report on Places Not Up To Standard

WILL REVOKE PERMITS

Places Selling Food or Drink Must Strictly Comply With Regulations Laid Down.

Health Officer Louis E. Foulks desires the assistance of the citizens of Alexandria, in raising the 200 or more grocery stores, meat markets, soft drink places and other food and drink handling establishments, to a higher sanitary standard, to the end that their food and drink may be delivered to them in a clean and safe condition. He says, "While it is true these places have permits from the Health Department ,to conduct their business, it must be fully understood that such permits are in no case a guarantee that such establishment is at the present time, being kept and conducted in a sanitary manner." Any permit is revokedable at any time upon the violation of any section of our regulations or when in the opinion of the Health Officer, it should be deemed necessary in the interest of the public health.

In order to aid the Health Office in this very important work of keeping our food and drink clean and safe to use I ask the people of Alexandria to refuse to patronize any grocery store, meat market restaurant, soft drink establishment, ice cream saloon or any other place furnishing the public with food or drink, unless such place is kept in a virtily clean and sanitary condition, and the method of handling such food stuffs or drink are in keeping with the common rules of cleanliness.

The public must keep always in mind the fact that unsanitary conditions and careless methods in handling food stuffs and drink are direct means of communicating diseases.

Report to the Health Office any place you honestly consider are not up to a reasonable standard, and I will investigate the matter at once. If any grocery store, meat market or any other food handling establishment sells you any meat, fish or other foodstuffs that are tainted or otherwise unsafe for human food, report the matter at once to this office, either by phone, letter or in person. All such information is considered as confidential. The Health Department is doing all possible to make the food and drink of the people of Alexandria free from any danger of transmitting disease, but we must have the full cooperation of the citizens in this important work."

Health Officer.
Louis E. Foulks.

Vote In City Was: Oliver, 600; Meetze, 310; Collins, 508; May, 275; Jesse 136.

Latest returns from the primary, regarded as equivalent to an election, give Oliver 290 majority in Alexandria city and 21 in Alexandria county. Mr. Oliver estimates his majority in Fairfax at about 450 and reports from Prince William county, Meetze's home county, indicate that Meetze carried that county by about 150 majority. His majority was 154 with four precincts missing. Manassas gave Meetze 173; Oliver 108. Meetze carried 8 precincts and Oliver 6 in Prince William.

The big vote of 811 in Alexandria county to Jesse, however, resulted in the defeat of Collins for the seat in the legislature.

More than 900 votes were polled here yesterday which was a surprise to many persons, inasmuch as those around the polls did not estimate that the vote cast would be in excess of 800. The majority of the votes polled were not cast until late in the evening.

ON THE TRAIL OF FOOD HOARDERS

President Will Send Message To Congress This Week

GIVEN RIGHT OF WAY

Course of Criminal Actions Against Profiteers and Those Holding Foodstuffs Planned.

President Wilson will go before Congress this week, probably on Friday, to lay before the legislative branch of the Government his program for reducing the high cost of living.

Announcement of this fact was made at the White House last night following a day of intense concentration by the various agencies of the Administration on what has come to be recognized as the most pressing problem of the moment. The extent to which the President is giving it his attention to the exclusion of all else was demonstrated by the statement from the White House early yesterday that all conferences with members of the Senate on the league of nations controversy have been temporarily postponed.

The President's recommendations to Congress will be built around a list of suggestions laid before him this afternoon by Attorney-General A. Mitchell Palmer in the name of a special committee of the Cabinet which has been studying the subject.

But while legislation is deemed essential to the completion of the Administration's program of action, the Government already has determined on a course of criminal actions against profiteers and hoarders of foodstuffs under the penal provisions of the Food Control act, which is still in effect.

WASTED MONEY

Senator Capper, of Kansas, asserts that the Democratic administration cannot escape responsibility for waste and extravagance during the war. It is perfectly true that the people wanted all of the money spent that they will indorse willful waste and incompetent management. The record made by the United States as a "spender" during and for many months after the war has been unparalled in the history of the world. Speaking of this the Senator from Kansas says:

"I have no sort of doubt enough money has been wasted in Washington every year for the last three years to bury the city deeper than Herculaneum was buried by Mount Vesuvius if these wasted dollars could have been dumped on the capitol. And this, notwithstanding the new Congress has just sliced off nearly $3,000,000,000 mainly from appropriations the old Congress was unable to pass before its adjournment because five Senators went on a strike with a filibuster. A lucky strike for Uncle Sam's taxpayers, for it resulted in the greatest saving ever made by any government since the world began."

The Philadelphia Inquirer in this connection asks, "Is it too much to say that this wild orgy of spending has had something to do with the high and still mounting cost of living? Not at all. Senator Capper says that the wretched breakdown of the War Risk Insurance Bureau is largely due to the government serving of money in that branch of the government service. He says that nearly 1,000 girls were employed in that bureau and that the buildings in which it was so housed were so overcrowded that the employes were literally falling over one another. Many high priced officials were at a loss to know the nature of their duties and it is not surprising that the bureau should have collapsed. These are not merely wild assertions. They are facts that have been brought to light by a special investigating committee of the United States Congress. Few capitals in the world are so well provided with public buildings as Washington, and yet other properties were rented right and left to such an extent that the rent roll of the government soon amounted to nearly a million dollars a year.

"No one expected that the war could be won without the expenditure of great sums of money. The people gave and they gave willingly, but they have a right to know whether some sort of discretion was used in the process."

THE TWO PICTURES

If the proletarian who toils with his hands thinks he is being cheated of the just rewards of his labor, a visit this week to the New York Reemployment Bureau would have opened his eyes.

A large contracting firm telephoned to Major Warren Bigelow, director of the bureau, for a gang of laborers, to be paid $37.20 a week each.

A minute later the president of a college telephoned for a professor of mathematics at a salary of $1,000 a year, which is $19.23 a week.

Poor, down trodden labor getting $17.95 a week more than the man who has devoted the best years of his life study, and who probably formulated the philosophy by which the "man who toils" considers himself the "salt of the earth."

THE ERA OF STRIKES

The threat of a railroad strike continues to spread throughout the country despite the efforts of the organized labor heads to hold the men in check until authoritative and official strike votes can be taken. down their tools in premature strike, it was reported, were threatening national industry, because without them the railroads' equipment cannot be kept in usable order at the most necessary of all times—crop moving season.

Above that hovered the threat of an even more serious labor situation, the demand of all the organized railroad industry that the profits of the business be overhauled to retire private capital and create a new partile control.

Reports began coming in today saying that unless railroad equipment can be kept in running order mills, mines and factories will be threatened with closing. It was reported that there are more than than 200,000 cars now out of commission.

Meanwhile threats of hundreds of thousands of railroad employes to go on strike to force higher wages to meet the high cost of living and reiterated. From many parts of the country came reports that striking shopmen refused to work, despite the fact that their action was denounced as illegal by the executive counil of the six shop crafts.

MUST RATIFY TREATY

It has been suggested that he country's impatience with the Senate for its dawdling over the peace treaty will ripen into indignation if the futile hearings and speechmaking are much longer continued. The Foreign Affairs Committee has laboriously read the document, line by line, paragraph by paragraph, to the end of the 37,000 words it contains.

The New York Times Says "It conducted the reading not in the spirit of men intent upon a sympathetic examination of the great charter of peace and liberty for all nations, but rather like a body of the Inquisition panting through an Erasmian pamphlet for heterodox utterances, or a gimlet-eyed church committee bent upon convicting the parson of heresy. The members of the committee are no wiser than they were before. The hearings go on, the speechmaking continues. Republican Senators, prompted by no other motive than their bitter dislike of President Wilson, consume days in denouncing a document which they are not competent to expound or elucidate. It is time to make an end of it. In the end the Senate must and will ratify the treaty; it has no way of escape from that duty, for the country commands it. It now lays itself open to increasing severity of censure for every day it puts off ratification."

WAR ON TOBACCO

There is nothing new in the attempt to banish the use of tobacco. "The Social History of Smoking," a most fascinating little book, is authority for the information that the course of the smoker in England was beset by the most extraordinary series of periods of absolute freedom and stern restriction. Not only the use of tobacco itself, but also the various forms of its use, at times became respectable or beyond the pale. The cigarette, for instance, would not be tolerated, while the pipe was quite au fait. Then the pipe would fall into disrepute and the cigar would be permissible. Following these an age would come in which only the taking of snuff would be allowed.

But now, it would seem, the whole vest power of intensely moral organizations is to be focused upon the pernicious weed. The schools are to be made the media of disseminating the propaganda.

Well, so be it! Possibly the long haul will turn before we know it. The sooner tobacco is gotten out of the way the clearer will be the road for the abolition of coffee, tea, chewing gum, the theater, humorous literature, Sunday baseball—perhaps all sport. Let no field of human endeavor which may result in pleasure or relaxation escape! We are nearly 300 years behind the Puritans—and we must catch up!—Baltimore News

All of the fires began in a pasteboard box filled with shavings in a hall closet on the third floor.

PASTOR ALLEGES MURDER

Makes Bold Statements at Memorial Service for Pittenger

Frederick, Md., Aug. 6.—The death of William H. Pittenger, who was found dead in bed at his home near Johnsville, July 1, with a bullet in his body and his skull crushed, continues to be a subject of talk in the northeastern section of the county.

A funeral service for the dead man was held at Rock Hill Church Sunday afternoon, at which the Rev. R. S. Patterson, pastor of the Lutheran Church, Woodsboro, preached a memorial sermon. The service was largely attended, among those present being Mrs. Susan Pittenger, mother of the dead man, and nine brothers and sisters of the deceased. Mr. Patterson took for his text. "But all things are naked and opened to the eyes of Him with whom we have to do," and his remarks have caused much comment. Referring probably to Mrs. Laura Bertha Pittenger, widow of the dead man, and Arthur Wilson, who were accused of killing Pittenger, Mr. Patterson said:

"It is now well understood why Mr. Pittengr's burial was so secluded and private. This inoffensive man had come to his end at the hands of murderers, and they who should have had sympathy for him and should have been the chief mourners were conspicuous by their absence. This was in the eyes of a law abiding and Christian community is very significant.

"It is incredible, almost unthinkable, that all this could have happened in a community where there are three or four Christian churches wthin three miles of the scene of the tragedy and most horrible crime God knows the guilty persons who committed this crime and savage murder and He will pont his finger at them in the realm of conscence and say, "Thou art the man and thou art the woman." Therefore, let not the murderers of William Pittenger think they will escape."

ACTORS THREATEN STRIKE

They Insist That Chicago Managers Recognize Union

Chicago, Aug. 6.—The Actors' Equity Association last night threatened, or promised, to strike today if the managers of local houses fail to recognize their union, grant extra pay for Sunday performances and reimburse the members for rehearsals

"Chicago always has been a Sunday show town", said one of the obdurate managers last night, "and actors are getting enough money now."

Harry Ridings, president of the Theatre Managers' Association, said the producers would stand pat on their refusal.

RESULT OF THE CRUSADE

High Cost of Living Agitation Knocks Bottom Out of Produce Market

Chicago, Aug. 6.—Effort to anticipate the results of any quick switch in the Government policy for disposal of the 1919 domestic crop of wheat knocked the bottom out of values yesterday on the Board of Trade. Downward plunges in the price of corn, the chief trading commodity, did not stop until the market was 32 cents a bushel lower than when the campaign against the high cost of living began a week ago.

It was not until there remained only a single hour of business activity before the time set for a conference between President Wilson and Julius Barnes, Federal Wheat Director, that the grain and provision trade appeared to give serious credence to reports circulated for days that the Government would make a radical cut in the price of wheat to consumers. The most definite of these reports was that millers would get wheat from the Government 50 cents a bushel cheaper than the Government had guaranteed. This would make flour less expensiv than at present by $2 a barrel.

As corn prices have been largely based on a prevalent belief of farmers that $2.26 a bushel for wheat meant $2 a bushel for corn, and that the value of all other cereals and consequently of all livestock and meat products had a similar substantial relation, and the absence of any denial of reports that wheat prices would be severely cut, finally produced a tense situation late today.

Wholesale throwing overboard of holdings of all commodities made the exchange a scene of confusion not often rivaled in peace times. Although the wildest of the flurry had passed when the gongs cleared the pits, the outlook was that regardless of what the Washington conference decided the markets tomorrow would furnish further excitement.

LONDON MOTORMEN STRIKE

City on Short Rations of Bread Through Bakers' Walkout

London, Aug. 5.—Motormen of the South London subway went on strike today in what labor leaders said was an extension of the sympathetic strike movement to support the striking policemen. Enginemen of the Southwest ern Railway declared a strike at midnight Sunday.

London is on short bread rations today because of the continuation of the bakers' strike. No buns or cakes are available except for the hospitals. The national balloting by the bakers, it was announced today, shows the offer of arbitration was rejected overwhelmingly. Another conference of the bakers' leaders with the Ministry of Labor will be held tomorrow.

PIES TAKE ANOTHER JUMP

Chicago Manufacturers Boost Price To Five Cents

Chicago, Aug. 6.—Chicago manufacturers of pies increased the price of their product to retailers Monday 3 to 5 cents. The price on what is known in the trade as special pies was raised from 30 to 33 cents, while the price of extra special pies, which are made from fresh fruits, was announced from 35 to 40 cents each.

Manufacturers said the high cost of labor and other materials made it necessary to increase the price. Many restaurant keepers increased the price of pie to their patrons while others served smaller portions.

Mrs. Victor Berger, Wife of Milwaukee Socialist Denied Admittance

Mrs. Victor Berger, wife of the Milwaukee Socialist whom the House charges growing out of his attitude toward America's participation in the war are cleared up, has been denied admittance to the House gallery.

Mrs. Champ Clark, wife of the former speaker of the House, is sponsor for the story of the incident, she said yesterday.

"I feel very much ashamed that such a thing should have happened to a woman of Mrs. Berger's high character. I had the story from Mrs. Berger herself. She had a card of admission to the gallery which read 'Admit Mrs. Berger and Friends.'

"She went to the members' gallery and was told by the guard that there were no seats left. She was directed to the next gallery where the doorkeeper told her that while there were seats they were reserved. Going on to the next gallery Mrs. Berger presented her card.

"'Are you any kin to Victor Berger?' the doorkeeper asked.

"'Yes; I am his wife,' Mrs. Berger replied.

"'You can't come in here,' the man declared and blocked the entrance Mrs. Berger said that she did not hold the man at fault as he was evidently acting under orders."

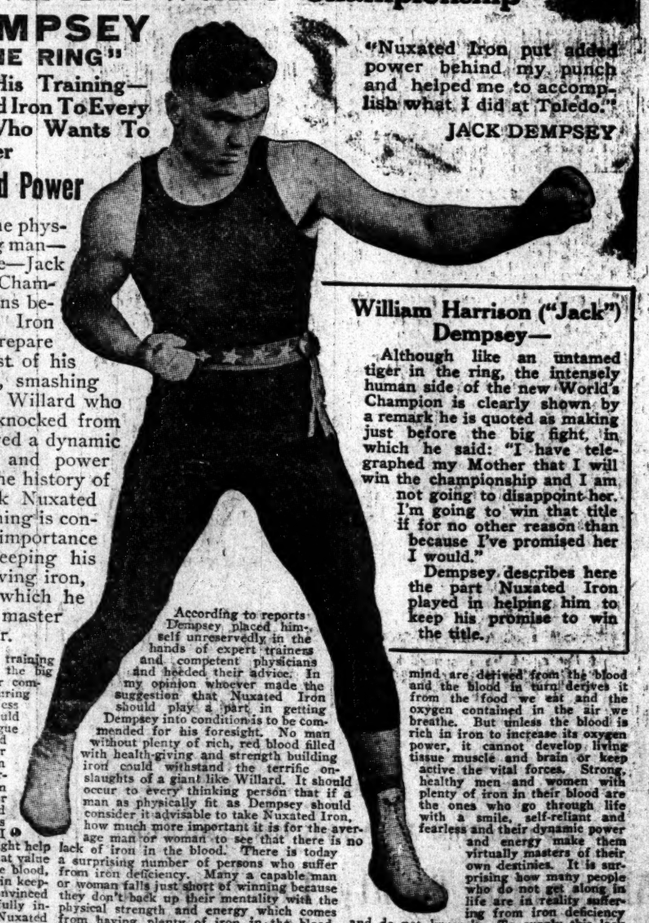
How Nuxated Iron Helped Me To Whip Jess Willard

Put Me In Such Superb Condition As To Enable

And Win The World's Championship

JACK DEMPSEY
"TIGER OF THE RING"
Tells a Secret of His Training—Recommends Nuxated Iron To Every Man and Woman Who Wants To Build Greater

Strength, Energy and Power



"Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo."
JACK DEMPSEY

Today recognized as the physical superior to any living man—the Superman of the Age—Jack Dempsey, Heavyweight Champion of the world, explains below the part Nuxated Iron played in helping to prepare him for the supreme test of his career. In his decisive, smashing victory over the mighty Willard who had never before been knocked from his feet, Dempsey displayed a dynamic overwhelming strength and power never before known in the history of the ring. That he took Nuxated Iron as a part of his training is convincing evidence of the importance Dempsey attached to keeping his blood rich in strength-giving iron, and the high regard in which he holds Nuxated Iron as a master strength and blood builder.

William Harrison ("Jack") Dempsey—

Although like an untamed tiger in the ring, the intensely human side of the new World's Champion is clearly shown by a remark he is quoted as making just before the big fight, in which he said: "I have telegraphed my Mother that I will win the championship and I am not going to disappoint her. I'm going to win that title if for no other reason than because I've promised her I would."

Dempsey describes here the part Nuxated Iron played in helping him to keep his promise to win the title.

In a statement made at his training quarters in Toledo, the scene of the big battle, Jack Dempsey said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercise to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I should leave nothing undone that might help me to win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to wonderfully increase my stamina and endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "The methods of training adopted by Willard and Dempsey may have had a great deal to do with the outcome of this fight. According to reports Dempsey placed himself unreservedly in the hands of expert trainers and competent physicians and heeded their advice. In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength building iron could withstand the terrific onslaughts of a giant like Willard. It should occur to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. There is today a surprising number of persons who suffer from iron deficiency. Many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which comes from having plenty of iron in the blood. Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron."

Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York, says: "Strength and vitality of body and mind are derived from the blood and the blood in turn derives it from the food we eat and the oxygen contained in the air we breathe. But unless the blood is rich in iron to increase its oxygen power, it cannot develop living tissue muscle and brain or keep active the vital forces. Strong, healthy men and women with plenty of iron in their blood are the ones who go through life with a smile, self-reliant and fearless and their dynamic power and energy make them virtually masters of their own destinies. It is surprising how many people who do not get along in life are in reality suffering from iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity, prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

MANUFACTURERS' NOTE: Nuxated Iron which has been used by Jack Dempsey and which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, and does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

SENATOR DEFIES LABOR

Thomas, Of Colorado, Likens Railroad Men's Attitude To Treason

Washington, Aug. 6.—Senator Thomas, Democrat, Colorado in an impassioned address in the Senate late yesterday, defied labor to the railroad employes and likened their attitude to treason.

"I cannot justify it as anything short of treason," he said, after citing the recent public statements of the Brotherhood officers. "We are face to face with the demand for wage increases costing $800,000,000, which confessedly will not help them, or they will suspend our great transportation system.

"Their second demand is for confiscation of $20,000,000,000 of property, that it be put into Government ownership. This is the first time in the history of the American nation," the Colorado Senator continued with great earnestness, "and God grant it be the last, in which a segment of the American people has pointed its finger at the American Congress and said 'you must legislate thus and so' or we will strike and tie up all transportation and industry.

"Curs is the responsibility now to give answer. There is no consequence so serious as involved in yielding. It means an end to representative government. Let's not flinch the issue. Its quite as important as any treaty. It is a threat to bring ruin on the country.

In the past, Senator Thomas declared, both politics' parties in Congress had acted with a view to capturing the next Presidential election and he expressed hope that in the present crisis partisan politics would not be a factor.

Sometimes, he said, he wondered whether, in the next Presidential election but one party, composed of both Democrats and Republicans would not be found fighting side by side to overcome the tide of radicalism.

"We have just waged a great war," he continued, "to make the world safe for Democracy. It now is the duty of this generation to make democracy safe for the world, to make democracy conscious that there can be no liberty which does not respect the liberty of others."

Mrs. Kauffman, it is said, will recover, and owes her life to a plate of false teeth which deflected one of the bullet fired at her. The Kauffmans had been separated for 18 years. The tragedy took place at the resident of Mrs. M. A. Myers, where Mrs. Kauffman was visiting.

U. S. MAY TAKE ZEPPS

Experts Say Armistice Entitled to This Portion of Hun Ships of War

The United States will demand a share of the Zeppelins now owned by Germany and subject in all respects to the terms of the armistice it was reported here last night.

What shape the demand will take depends on the opinion of Secretray of the Navy Daniels. The expert judgment is that the Zeppelin is the one item of the German vessels of war that would be of any use to the United States and that the use of the Zeppelin by Great Britain just now is threatening to put her too far ahead of the United States to permit of any delay in the United States acquiring some of the German vessels.

The taking of vessels of this type got a new impulse yesterday by the news that Germany or a German factor, was threatening to destroy the twenty-four first class Zeppelins now at Berlin if they were not permitted to take them or some of them to the United States for purposes of sale.

GERMANY TO GIVE UP 140,000 MILCH COWS

Berlin, Aug. 6—The German government is now getting ready to ship 140,000 milch cows to France and Belgium, as required by the treaty of peace. These cows are being requisitioned in East Prussia Oldenburg, Schleswig-Holstein, Mecklenburg and Hanover, where there as some herds of cattle left. According to a government statement there are now 7,700,000 milch cows left in Germany. Only 1,765,000 of them are available for the milk supply of large cities. Only the sick babies are entitled to a milk supply, which requires 6,500,000 liters a day.

Car Falls Down 200-Foot Embankment Near Elkins, W. Va.

Elkins, W. Va., Aug. 6.—Mrs. Rosa Gotinsky is dead and her son and a Mrs. Mouse are injured, probably fatally, according to reports received here Monday as the result of an automobile accident in which their car fell 200 feet over an embankment near Coketon along the road from Thomas to Douglas.

It is said that the car struck the ground but once in its drop from the road to the railroad tracks below.

BAYONETS QUELL RIOTS

Cruiser and Destroyers Move Into River to Protect Liverpool Docks

Liverpool, Aug. 5.—Riotious crowds were driven from the streets of this city yesterday morning by troops charging with fixed bayonets. The rioters filled the streets during the night and it was not until daybrak the soldiers were ordered to charge. The cruiser Valiant and two destroyers have moved into the Mersey river to protect the docks.

The employes of bus and tramway lines failed to report for work yesterday morning. No notice of a strike had been given, but it is not believed that the movement was undertaken in sympathy with the policemen's strike.

The rioting thus far has resulted in damage to the extent of $1,250,000 it is estimated. Nearly 200 small shops have been wrecked and looted One man has been killed, two others wounded by shots and 70 or 80 by glass, stones or police batons. There have been 400 arrests.

GOLD LOST 119 YEARS SOUGHT

Search Will be Made for $5,000,000 by a Submarine

New York, Aug. 6.—With the waters of the Atlantic Ocean swashing over his head, Simon Lake, submarine inventor, expects to excavate the bottom of Long Island Sound, off Port Morris, and try to salvage $5,000,000 gold bullion from the treasure chests of the H. M. S. Huzzar. The treasure has nestled on the bottom for 119 years.

The story of the Huzzar and its buried gold is as romantic as any sea yarn ever spun by Jules Verne or Robert Louis Stevenson. It begins at a date when pirates roved the Atlantic, and promises to end with a submarine climax. The British warship Huzzar, was launched about the year 1760.

The last trip of the Huzzar was when she started to the American colonies in 1780, carrying a cargo of golden wealth in her hold. In making the waters of the harbor, at a time when Hell Gate was not adequately charted, she struck a rock and stove a hole in her bottom. She tried to make shore, but didn't and sank off Port Morris. The treasure, which was to have paid off the soldiers of the crown, sank with her.

Thirty years ago a company was organized on Staten Island to attempt the salvage of the Huzzar gold. The most accomplished diver of the day spent much time in the water. He seucceeded in bringing up a hard oak rib of the ship and a few coins, and then was forced to give up his eforts.

GOMPERS WARS WITH HUN LABOR LEADER

Amsterdam, Aug. 6.—The final session of the international labor congress was thrown into an uproar through Samuel Gompers' demand for removal of objectionable paragraphs in the resolution regarding the labor conference at Washington in October. Herr Legien, one of the German delegates, asserted Gompers would be "working for the employers" if he did not withdraw his demand.

Gompers in a passionate speech declared Legien was "a man who voted throughout the war for Kaiserism and knew nothing of what honor is." Other German delegates howled "Shame!"

HOG ISLAND LAUNCHING ANNIVERSARY OBSERVED

Shickshinny Takes Water, Making World's Record of 47 Vessels in Year

The first anniversary of Hog Island's ship launchings was celebrated yesterday morning when the Shickshinny, a 7825-ton steel cargo carrier entered the Delaware from Way No. 87, Division No. 4, at 9.20 o'clock, bringing the total number of ships launched at the yard in one year to forty-seven. The ships had a total of 367,775 dead weight tons establishing a world's record for shipyard production.

It was just a year ago yesterday that Hog Island's first vessel was launched. It was the Quisteonck, which was christened by Mrs. Woodrow Wilson in the presence of President Wilson and a gathering of 100,000 persons.

Miss Natalie Beach Crary, of Shickshinny Pa., daughter of one of the founders of the town of Shickshinny, christened the vessel. The sponsor was chosen by the Shickshinny Chamber of Commerce in recognition of her activities in Red Cross and other relief organizations during the war. The name of the vessel was chosen by Mrs. Woodrow Wilson.

A delegation of Shickshinny residents and officials of the American International Shipbuilding Corporation witnessed the launching.

For the first time in the history of ship launching at the Hog Island yard two women officially rode down on the vessel on its maiden voyage They were Mrs. J. L. Ackerson, wife of the vice president of the Emergency Fleet Corporation, and Mrs. W. K. Varker.

AUTOMATIC TELEPHONES

Cut Over to New System Takes Place When Tests Are Completed

York, Pa., Aug. 6.—Within a few weeks, certainly this month, it is claimed, the subscribers to the York Telephone, the local independent system, will be using the automatic system. General Manager George B. Rudy is requesting that subscribers do not use the numbers until notified.

The cut over will take place just as soon as the engineers have tested out everything and find that the whole system in in shape. The company will at once begin to distribute the new telephone directories, which contain the telephone numbers of the automatic system.

In a short time the 8000 or 9000 subscribers to the indpendent telephones in York will soon be dispensing with calling up Central and asking for connections with their parties, for under the new order of things all one has to do is to turn the little dial at the bottom of the telephone to the number wanted and the connection will be made automatically. The work of installing the system started more than a year ago, but was greatly delayed by the war and the consequent trouble in securing the materials. Now everything is done except testing out and cutting over.

TRUNKS OF ALLIES STOLEN

Berne, Switzerland, Aug. 6.—Advices received her from Berlin report that trunks belonging to two members of the Allied Armistice Commission in Germany were stolen recently.

The trunks contained important documents concerning agreements for the restitution to Belgium and France of machinery that had been removed by the Germans.

DOES NOT BAN CHILDREN

Washington, Aug. 6.—Denial that children who have to work and consequently are unable to go to the bathing beach in the morning would be deprived of the opportunity for swimming was made yesterday by L. Gordon Leech, manager of the beach. Mr. Leech issued a statement to correct the misinterpretation of his order that no children would be admitted to the beach after noon.

The manager pointed out that the order does not effect the children who are working or attending summer school. The children will be given the privilege of the beach at any time, provided they have the necessary certificate signed by their parents or employer.

THEATRES

GRAND THEATRE

Dainty Louise Huff who, with Jack Pickford, is appearing in "What Money Can't Buy," at the Grand Theatre tonight is responsible for the production of this popular picture. Miss Huff chanced to see the George Broadhurst play of the same name, and when she went to the Lasky studio, told Miss Beulah Dix of its photodramatic value, Miss Dix at once began work on the scenario. Also E. K. Lincoln in "Elmo the Mighty."

INGOMAR THEATRE

A woman hater thought that the young person he had taken an interest in was a boy! But the boy was a girl! This striking situation provokes many laughs in the World Picture, "Phil for Short," in which charming Evelyn Greeley is starred. The whole picture is pleasing, entertaining, delightful. It is jammed with smiles and chuckles, and with thrills and tense moments, too. "Phil for Short" is a splendid vehicle in which to inaugurate Miss Greeley's appearance as a full fledged star. Everyone who enjoys a good picture is invited to see this production at the Ingomar Theatre.

RICHMOND THEATRE

Dorothy Gish invariably is delightful in any screen charaterization, but in "Nugget Nell," her latest Paramount picture which is being shown at the Richmond Theatre tonight, she is irresistible. This is a humorous travesty upon the wild and movie West which all alike will enjoy for its kindly satirical qualities.

Ford Sterling in a two reel comedy, "Hearts and Flowers," will also be seen.

NOW IS THE TIME

To Build Up Permanently. Nature at Its Best as an Aid.

If you who are weak, nervous and run down from over-work, worry of any other cause would only realize that the summer months is the time to build up strength and vigor there would not be so many collapses and rushing for aid during the winter.

The plan to follow is simple: plenty of rest and good wholesome food along with a strength-creating body- building tonic, Chasco-Vin with its Iron, Manganese, Hypophosphites, Nux and other strength making ingredients, is the tonic we suggest.

If you follow this plan carefully you will notice a wonderful improvement in two weeks time. But don't give up too soon.

The Local agent for Chasco-Vin is Edgar Warfield, Jr., King and Pitt Streets.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
